

HARLEY BEARD MUST PAY THE PENALTY OF DEATH

JUDGE THOMAS FINDS
THE MURDERER SANE,
WILL DIE ON OCT. 2

Ironton, June 17.—Harley Beard must expiate in the electric chair the triple murder he wantonly committed in Lawrence county on May 15 when he wiped out the Massie family.

Judge James S. Thomas, of Portsmouth, at the conclusion of Beard's trial Tuesday evening at 5:35, sentenced Beard to suffer the death penalty in the Ohio penitentiary on Friday, October 2.

Beard received the death sentence without a tremor of emotion. He failed to even arch his eyebrows as the words that spelled death to him fell from Judge Thomas' lips. The same calm demeanor that he had shown through the grilling given him by Prosecuting Attorney Lindsay Cooper was in evidence and Beard remained indifferent to his fate. There was not a twitch in his slender body when the death sentence was imposed upon him before an audience that taxed the capacity of the courtroom. It was the first time in many years that a jurist in Lawrence county had to invoke the death penalty.

Beard Asked
For Leniency

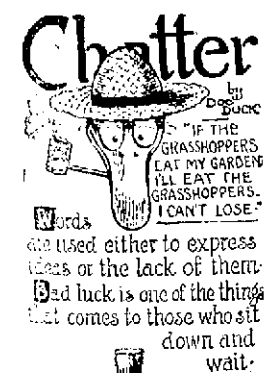

The verdict of the court was arrived at after a hearing which began at one o'clock Monday afternoon and which was held for the purpose of determining the degree of crime. Beard having entered a plea of guilty to a charge of first degree murder when arraigned several weeks ago. When ordered to stand for sentence and asked if he had anything to say, Beard replied with the absolute composure that has marked his hearing throughout

the case, that he only asked for mercy. When the death sentence was pronounced, the defendant's sister, Mrs. Marie Knorr, of Newport, Ky., the only one of a large family of brothers and sisters who interested themselves sufficiently to be present at the trial, gave a heart-rending cry of anguish and almost swooned. She rushed to the side of her brother and caressed him, and her grief had nothing to say, Beard replied with the absolute composure that has marked his hearing throughout

MODERN WOODMEN
IN BITTER CLASH
QUELLED BY POLICE

Toledo, O., June 17.—A riot call was turned in this morning when the session of the Modern Woodmen broke up after a fight between insurgents and regulars. A squad of 20 patrolmen was rushed to Memorial hall where the convention is being held. Shouts of "Down with the speaker" were answered by the band which struck up "This Is the Life," refusing to stop. The trouble started when Head Consul Talbot announced that the credentials committee would not be able to report until tomorrow. Talbot declared a motion to adjourn had carried. Insurgents yelled that the motion had not carried and they wished to be heard. The others ordered the band to play. The insurgents then began to push towards the platform and the police were called.

Board Will Adjust
Taxing Districts

Columbus, O., June 17.—The state administration is determined that inasmuch as the state tax is reduced by a special session of the legislature, local taxing districts must likewise have their rates reduced this summer. The special session, it was declared, by enactment made it practically impossible for cities, counties and other taxing districts to profit by the enormous increase duplicate for 1914. This will be done by limiting the amount of money that local districts can spend in 1914.

NO TRUTH IN REPORT
OF THE SPLIT-UP OF
VILLA AND CARRANZA

El Paso, Texas, June 17.—Gen. Villa, through his agents here, issued today a general denial that there had been any split between himself and General Carranza. He said that the arrest of the Carranza official at Juarez has been the result of a misinterpretation of orders on the part of Col. Ornelas in charge of the Juarez garrison.

Despite the declaration of Villa agents that all was peaceful here 30 of his men arrested yesterday were sent by special train today to Torreon where Villa is stationed. Censoring of Villa's dispatches is said to have caused the break between Villa and Carranza.

Washington, June 17.—Partisans of the situation in Northern Mexico are awaited with interest by officials here. The reported seizure of Carranza's government in Juarez, Chihuahua state, by forces of Villa admittedly had an ominous ring. Whether it prefigures a complete break in the ranks of the rebels officials here cannot say. The rebel puts is also without news, but officials say that Carranza's fact and ability can be depended upon to smooth things out.

General Villa's action in resigning his commission is not interpreted by the Constitutionalists as meaning a prominent breach between the two factions. Carranza representatives here made the explanation that Villa had determined to rid himself of troublesome politicians who have been associated with Carranza and issuing troublesome orders. Carranza is said to have claimed that the trouble would adjust itself. In the opinion of the leaders here, Villa will proceed to take supreme command in the north of Mexico and Carranza will compose the difference.

Mediation Is Halted
Niagara Falls, June 17.—On the word from Washington depends the move for immediate legislation. Justice Lamar and Fred W. Lehman telegraphed early today a 2,000 word report of their conference yesterday at Buffalo with Rappah Zuberan and Luis Cabrera, authorized representative of Gen. Carranza. There is a general feeling here that the United States may possibly inaugurate a distinct change of policy which has been produced by the unpromising attitude of Zuberan and Cabrera.

Dispatches telling of friction between Carranza and Villa, reports of a rupture in Sonora between Governor Maytorena and General Obregon and news of constitutionalist reverses both on land and sea have been received. While mediation thus far has accomplished little or no agreement on personal government having been reached, the Huerta delegates showed great anxiety to have the conference continued.

Another Story Of The Split
El Paso, Texas, June 17.—That an attempt on the part of General Carranza to appoint Gen. Angeles commander in chief of the Mexican constitutionalists in the north precipitated the revolt of General Villa which culminated in his seizure of control of all important cities in the north, was the report current here today. It lacked confirmation. Angeles is commander-in-chief in Carranza's provisional cabinet and is considered Mexico's Napoleon. The report is that Angeles refused the place and notified Villa of it. Although it is denied that Carranza and Villa have split it is generally believed here that they have. The general opinion here is that the entire constitutionalist army north of Zacatecas and San Luis Potosi with the exception of the forces with Gen. Carranza at Saltillo will support Villa's revolt. The plan and scope of the campaign still a mystery. Villa's friends say he will issue a statement some time today. Thus far the revolt has been bloodless and has not caused a disarrangement of the regular

TOOK BI-CHLORIDE OF MERCURY TO END HIS TROUBLES; WILL LIVE

Del H. T. Ault, a former Portsmouth race horse trainer, late afflicted with suicidal intent Monday evening, or was he merely shamming? are questions awaiting persons in the vicinity of Ninth and Chillicothe streets.

To his mother-in-law, Mrs. R. C. Patton, of No. 728 Ninth street, Ault said he had been troubled enough and that as he had nothing to live for, he had taken some bi-chloride of mercury, according to admissions made by her to a Times man Wednesday morning. When asked if he wanted a doctor he insisted that an ambulance be called to remove him to a hospital, but later he asked that a physician be summoned.

While Ault assigned no specific reason for his supposed attempted act of self-destruction, it was inferred he was brooding over the fact that his wife, Mrs. Emma Patton Ault, from whom he is separated, had not given him definite assurances she would return to him.

Dr. A. L. Test was called to attend Ault, who told the physician that he had taken but one tablet, but he seemed to be suffering more from the influence of liquor than self-poisoning from the effects of mercury.

Attaches of the Frank Gardner company, where Ault staged the affair, seemed disposed to ridicule the claim that the man had taken poison, though he appeared so ill that they called in his young sister, Miss Gladys Patton, who seemed to pass at the time. She took pity on him and asked him to come to her mother's home, a few blocks west of the barn, and he accepted the invitation.

Ault, after recovering from his illness, left the Patton home, and since he has since been back a few days, he has made no further reference to his supposed rash act. It is said he and his wife have been seen together, though she is still living in her home on Bond street, near Fourth street. To "Dipsy" Davis, a man employed at the Portsmouth Steel plant, stands between Ault and his wife. He hopes to meet Davis and try to induce him to leave his home and rooming at his wife's home, believing that once he accomplishes that much amiable he will have no trouble in effecting a reconciliation with her. The woman was employed as a milliner, she was in Portsmouth in advance of her family and for a time lived with Ault at Robinson avenue and Bond street. After they separated she lived for a time with a married sister on Third street. Her father, a leading contractor of Mason, O., moved to Portsmouth some months ago, but after the big strike began to affect building operations here, he returned to that city. She and Ault were married about six years ago and separated two years ago. Ault for the past year has been employed as a traveling mechanic for a big construction company in St. Louis, returning here last Saturday with a view to winning back his wife.

Ault is probably best known here for his successful handling of the S. S. Grimes' mare, Judith White, during a campaign over the Central Middle West a few seasons ago.

Taken To Workhouse
Sheriff John Eckhart took Cecil Reynolds, a local young man, to the Cincinnati workhouse Wednesday morning, to which institution Reynolds was sentenced for abandonment of his wife and minor child. Reynolds was sentenced several days ago, but he has been held in the county jail since that time in the hope that a satisfactory settlement could be made which would make unnecessary the carrying out of the prison term.

Charles Hartley has returned from Cambridge, Ohio, and seems to have recovered from his recent illness. He will resume his position at Charles Sperry's shoe shop.

PAINS AROUND THE HEART
When the action of the stomach is weakened by debility or defective nerve force the food is retained until it ferments. Gas forms and presses on the other organs, particularly the heart, the pain in that region often causing a fear of heart trouble. Organic heart disease rarely causes pain around the heart and when this symptom is noted you should try toning up your digestion before giving way to needless alarm.

Dr. Williams' Pink Pills are a tonic that directly affects the organs of digestion. They supply to the stomach the rich, red blood without which normal digestion is impossible. They awaken into activity the gastric glands and strengthen the muscles of the stomach and give the nerve force necessary to proper digestion and assimilation. With this blood and strength the nerves and muscles feel fresher and the improvement in health and vigor.

Two books "Building Up the Blood" and "What to Eat and How to Eat" will be sent free on request by the Dr. Williams' Medicine Co., Schenectady, N. Y. Dr. Williams' Pink Pills are for sale in every drug store.

Dayton, of the United States federal district court, through his son, Arthur Dayton, here today outlining the defense Judge Dayton will make against the charges of Representative McNulty of the lame that he was guilty of "high crimes and misdemeanors." The letter was written May 29, 1914, just before Colonel Roosevelt sailed for Europe, and reads:

"My Dear Judge Dayton: It is a matter of the simplest justice to you to say that I appointed you wholly without solicitation because as congressman I had learned to respect and admire you. At the time I had directed an investigation against Judge Jackson he made by the department of justice. Whenever I disagreed with you I advised your fifty disinterestedness of purpose and desire to follow the dictates of your conscience. You had nothing to do with the Jackson case and I was surprised you even knew about it."

Signed "COL. ROOSEVELT."

Workman Ground To Bits By B. & O. Train

Giance Franchi was instantly killed and Manzie Gucepp had a leg broken when they stepped in front of a west-bound B. & O. S-W. extra freight train just above Broadway early Tuesday evening.

Franchi's body was ground to pieces, having caught in a spring frog, while Gucepp, who was slightly in front of him, was knocked in the clear or he too would have shared the fate of his unfortunate companion and fellow workman. He was removed to the Hempstead hospital in Dr. O. W. Robe's automobile and it was found he had also suffered multiple body cuts and bruises besides the limb fracture.

The Italians were employed on Foreman Thomas Lewis' N. & W. section gang and lived in one of the company's houses on Walnut street. It was customary for them to walk down the tracks every evening after work to purchase groceries and provisions at East End stores. Just as they started Tuesday evening they noticed N. & W. westbound freight train No. 85 pulling out of the yards at Kendall avenue for Cincinnati. A yard engine with a cut of cars was directly behind the freight train. The foreigners concluded to cross over the tracks ahead of the yard engine. They succeeded but ran squarely in front of the swiftly moving B. & O. S-W. train and Franchi's life was snuffed out under the wheels. The cries of the other soon attracted persons nearby and with the assistance of the train crew he was made as comfortable as possible until the arrival of Coroner Robe.

Coroner Robe found \$50 on the dead man's body which he ordered turned over to Undertaker John Dice to be prepared for burial. From what he was able to learn the man came to his death through no one's fault save his own.

The victim was a robust, handsome looking young man and had been employed with Lewis' gang for the past year. John Conrad and Albert Spangenberg were the conductor and engineer in charge of the B. & O. S-W. extra train. Breakman Fred Schwartz was riding the pilot of the engine and as he saw the two men step between the two rails shouted warning to them, also waving his cap frantically at them in an effort to ward them away but seemingly they had their eyes on the N. & W. trains and failed to respond to the warnings.

The accident makes the third serious one the B. & O. S-W. has had in this vicinity in the past fortnight. First came the bad derailment at Santa Purnace which came near costing the life of Conductor John Brundage, then the near burning of a bridge and close call of the B. & O. Ports-

DOCTORS USING AMOLOX WITH GREAT SUCCESS

Amolox, the new remedy for eczema and all skin diseases, is curing thousands of cases that have been unable to find relief after trying many remedies. A well known physician, having a patient with a bad case of eczema of the scalp, head almost entirely covered with scaly sores, rapidly becoming bald, reports the case after one week's treatment with the Amolox prescription, that hair had stopped falling out, scalp rapidly healing, and a new growth of healthy hair just starting. Quoting the exact words of the doctor: "That Amolox is great stuff." Amolox is a clean, harmless, penetrating liquid that when applied to the skin, stops all itching and burning instantly. Will permanently relieve all skin troubles—will clear up a mucky complexion, or pimples on face in one night. All sufferers of eczema, salt rheum, tetter, acne, barber's itch, pimples on the face, can give this remarkable remedy a fair trial. If it fails it will not cost you a cent. OLD AGE DEFERRED

We all stand aghast and marvel at the wonderful achievements of science in the world today, and few of us no longer doubt that the claims made by eminent physicians that old age can be postponed and life prolonged by scientific living and correct interpretation of Nature's laws.

Violation of Nature's inexorable laws is largely responsible for the suffering and sorrow of the human race today. Violation in some one or more of the many forms of abuse.

Prominent amongst the medical scientists of the age may be mentioned the Bi-Chemie Doctors, the world-famous medical experts who have one of their permanent offices broken-down constitution, and after located in Portsmouth in the MacIntyre four or five different doctors (some Temple Building, Fortunate, and all kinds of remedies without success) are the people of the community when they have in their midst such skilled and competent aid as these specialists offer to all afflicted ones.

Men and women who have through any cause become afflicted with chronic disease, or premature physical breakdown, were not able to get help in time, would soon find themselves in a class, the membership of which no one cares to seek. Since establishing in Portsmouth their Southern Ohio headquarters, the Bi-Chemie Doctors have gained a most enviable reputation. This is due to their honest methods and due to their honest methods and the skillful work. These great specialists are ever watchful and careful of their many patients and they place a high estimate on their reputation.

Scores and scores of men and women who have suffered untold agony in body and mind, and who had tried in vain most all old methods, left

HIS OLD TRAIN BROUGHT BACK ENGINEER'S REMAINS

Fate decreed that the eastbound C. & O. flyer No. 2, which he for 18 consecutive years piloted, so successfully, should bring the remains of John Burwell, veteran engineer, killed Sunday in a wreck near Dayton, Ky., to Portsmouth for burial. The remains arrived here from Covington, Ky., Tuesday afternoon at 2:50, and were accompanied by members of the bereaved family, together with quite a delegation of C. & O. engineers. There was also an abundance of floral offerings from C. & O. officials, employees and friends of Cincinnati, Covington and other points along the line. The body was taken directly to Greenlawn cemetery for burial in the family lot there.

Coroner Dr. James Digby is still investigating the wreck and will secure the evidence of the crews of both the employees' committee that caused the wreck and the east-bound freight that was struck by the commuter. Fireman Murphy, who was injured in the accident, will be allowed to resume his duties within a few days.

Night Court Held Following A Raid

To accommodate the defendants, Mayor Frick held a session of night court early Tuesday evening and for the second time in two months found Mrs. Adeline Brown, of Twelfth street, guilty of cohabiting a house of ill-fame, Nick Callum, a foreigner, of Ashland, Ky., and Anna Harris, the couple caught in a raid made on the house about four o'clock Tuesday afternoon by Captain McCarly and Officer Flowers, were also adjudged guilty on the charge of visiting a house of that character.

THE FEDS

Westbury, Long Island, June 17.—The industrial polo cup emblematic of the world's championship will cross the ocean again, having been won here yesterday by the English team in the second game of the series by a score of 5 to 2. Although the American defenders made a desperate last ditch stand, they were not able to prevent the English from scoring and winning. Their thrilling rushes, both individually and as a team, in the closing minutes of the struggle aroused the local spectators to a frenzy, however, and no previous international polo struggle ever closed under such a storm of cheering and applause. When the eighth and final period opened, the American team was leading by a fraction of a point, but despite their desperate efforts they could not hold the advantage.

Each team scored a goal in the period, but the defenders, in their anxiety to clinch the victory, transgressed the rules and were penalized for fouls, and so became aware that they were on the same level as the English. Their captain, Captain E. H. Barker, of the Marlborough club, was awarded the cup by the club house on the side of the English colony.

St. Louis, June 17.—Pulcher Thompson, who had left unexpectedly the morning of June 15, returned here with the St. Louis Federals today. Explained to the Times Star correspondent his reason for jumping. Thompson, who was out for morning practice at the Federal home park, said:

"I was told by a friend of mine, Harlan, that Manager Rogers failed to give me an increase. Last night when I signed a Cincinnati contract, I had so muching better position. The salary was small, and I turned down a tempting Federal offer. I am pleased with my work on the staff. I think I showed them that I was willing to stick. I always was willing to work and tried hard. So I thought an increase. I was willing to wait the longer because I pay myself a small salary. If they don't see fit to give me the raise, I will take it where I believe in, and that is the Federal home park. I think the majority voted Thompson as the best pitcher in the major leagues."

Brooklyn, June 11. Possible feds of the imminent future, Frank Schulte and Edwy Rothblatt. The tips are that Rothblatt and Schulte would look well in fed uniforms. Rothblatt, still a fed pedler, has been unlucky in Brooklyn, seems unable to win games where he found marauding feds. Rothblatt has been fed and is anxious to be back to the earnings he has been in, fed, for years. And Herzog thinks Rothblatt is the best goods, and would like to have him appear before Thursday. The news is, Schulte has had the worst season of fed peddling, following the release of his life, is hitting way under 200,000. Adams and Ingersoll, left the

At 12:30 Wednesday afternoon, the jury which is hearing the evidence in the \$10,000 damage case of Julius Hasey against the Norfolk and Western Railroad company, was taken to the Kendall avenue crossing to view the exact spot, where in February, 1912, Daniel Hasey was ground to death beneath the wheels of an N. & W. freight train. Counsel for the plaintiff and defendant company also accompanied the jury to the scene. The purpose of the trip was to enable the members of the jury to better acquaint themselves with the location so that they could more intelligently pass upon the evidence submitted at trial.

Mrs. Julia Hasey, widow of the victim is suing for \$10,000 damages on the ground that the company's agents did not exercise the ordinary care and caution in approaching the crossing on that day. Attorneys for the railroad company in their answer filed recently, allege contributory negligence on the part of the victim, and it is upon those issues that the case is being fought.

William A. Leichter, engineer of the train which run down and killed Mr. Hasey, occupied the stand throughout the entire morning, concluding his testimony just at the time of the noon adjournment. He was called as witness by the plaintiff's attorneys, Messrs. Theo K. Pink and Miller, Miller and Searl, Bannan and Bannan, N. & W. attorneys, are defending the suit for the company. Judge Edward C. Carr, of Ironton, is presiding at the hearing.

A Fast Game

What is considered two of the fastest teams in the Junior League are the Bigelows and Colts, who met in their opening game Tuesday afternoon at York park, and it was some game, too, with Miller and Dillon in a swell pitcher's duel. The Bigelows won by the close score of 4 to 3.

Bigelow 2 0 2 0 0 0-4 7 5

Federals Win in Last Round

The Federals came from behind in the seventh and with several hits won from the Cubs. It was a close and hard fought battle until the seventh, the Cubs having a lead of 4 to 1 at that time. Smith, after pitching fine ball, weakened in that round.

Score by innings: R. I. E. E. Federals 0 0 1 0 0 4-6 7 2

Starlin in Form

The Midgets and Yankees played a fast game at York park with classy pitching by Starlin and Milhuff. Starlin, the Yankees' star southpaw, was too much for the Midgets and had them all chopping after the second inning. He also lived out a long run in the fourth with two men on.

The couple stoutly maintain their innocence of the charges, and have retained Attorney William R. Sprague to defend them when the cases are called for hearing Thursday morning in police court. Leethart claims that Mrs. Malone is indebted to him for an amount sufficient to square the account alleged.

passionately by the condemned youth, who exhibited less feeling over the sentence than the least interested spectator in the crowded court room. He was led back to jail and walked with the same quick, confident step that had been one of the characteristics of his indifference. His sister he did not even bid goodbye as he was led away, but sympathetic women in the audience almost carried her to the rest-room of the court house where she sobbed out her grief.

Story Was Broken Down

Deard was on the stand almost the entire day and told the truth about some of the main details of his fearful crime with such indifference as if his victims had been animals. On cross-examination many of the details of his story were broken down, but despite the efforts of both state, defense and the court, he never gave a motive for his crime, leading to the general belief that he killed Robert Massie in a spirit of murderous malice and then slew the two women that they might not tell for the first time he admitted that he had killed Mary Massie's hands before he killed her, and gave as his reason, and this rather incoherently, that she was trying to get to the telephone to call help. He persisted in the claim that he did not intend to violate her person, and said he cut the throats of the two women because they were groaning after he had bent them with a club, and he could not stand to hear them go on. He denied any motive of robbery, and from his evidence his obsession was to get money enough to go back to Chicago.

Dramatic Scene In Courtroom

The most dramatic incident of the day came when Deard made a statement to the effect that Miss Mary had made overtures to him. The prisoner had barely ceased speaking when W. E. Massie, the surviving brother of the family, hurled the hat at the prisoner and made a frenzied attempt to get at him. Deputy Sheriff Hutchinson, Prosecutor Cooper and Roy Massie grappled with the crazed man, intent on smothering vengeance for the insult to the memory of his dead sister, and it was only after a hard struggle that he was quieted. In the meantime, a brief panic reigned in the court room. The prisoner's sister screamed and fell back in her chair meaning out pleas for mercy on the boy, other women spring to their feet with cries of fear and men rushed from all directions toward Massie and the prisoner.

During the pandemonium, Deard sat looking straight ahead of him, did not even turn to look toward the brother of his victims and did not show by even a flicker of an eye-lash that he was conscious of any commotion. When order was restored and the court cautioned him to tell the truth and not resort to lies, he replied: "I have told the truth, and nothing but the truth."

The Arguments Were Very Brief

The argument in the case was very brief. Attorney Booth, for the prisoner, admitted his client's guilt and admitted he could not account for the horrible crime nor the prisoner's apparent failure to realize the enormity of it. He left the matter entirely up to the court, stating that he had done justice to the boy as far as his conscience would permit. The argument of Prosecutor Cooper was equally brief, demanding that justice be done in the light of admitted responsibility of the defendant and the fact as established by evidence that the triple murder was premeditated and cruel beyond human comprehension. Deard admitted that none of the family had ever mistreated him.

As an evidence that the prisoner was not attempting to minimize his offense was his statement regarding the killing of Robert Massie. When asked by the prosecutor if he did not know that the blows with the club would kill Bob, the prisoner replied: "Yes, that's what I intended to do."

Miss Massie Was a Virtuous Girl

In passing judgment, Judge Thomas stated that the evidence in the case showed that the victim, Miss Massie, was a virtuous girl and that Deard had led in attempt to besmirch her memory.

jail last evening.

The probable final meeting of the brother and sister was heart-rending. The sister forgot that her brother was convicted of the most heinous crime possible and fondly caressed him and asked him to make his peace with God.

Mrs. Knorr stated that she loved her brother dearly and it broke her heart to see him executed, adding that she would gladly offer her own life to expiate the crime of her brother if only his life be spared, just as he was blossoming into young manhood.

Gave Gold Watch To Faithful Sister

Deard was more touched than he has ever before been since his arrest. He did not break down completely, but was visibly affected and gave his gold watch to Mrs. Knorr, stating that he would have no further use for it. It was only for the few minutes that his sister was with him that Deard lost that stolidness, that outward imperturbable calm that physicians, lawyers, judges and all who have studied the boy have been unable to fathom. Yet the moment she left he regained his composure, and if he holds any dread of the death that awaits him on October 2, he keeps it sealed within his breast.

Mrs. Knorr left on the early train this morning for her home in Newport, Ky. She will probably visit her brother at Columbus before the execution.

Sheriff Sloan announced last night that he would take Deard to the penitentiary as soon as the commitment papers are received. He will leave within the next day or so.

Huerta Navy Sinks The Rebel Gunboat

Washington, June 17.—General Huerta's forces won a decisive naval victory over the constitutionalists today when the federal gunboat Guerrero sank the constitutionalist gunboat Tampico off Topolobampo.

It is reported that the captain and chief engineer of the Tampico committed suicide. The crew was rescued by the crews of the New Orleans and the Guerrero.

The surgeons of the New Orleans rendered medical assistance to the wounded.

The battle was witnessed by three American ships, the New Orleans and destroyers Perry and

Probel. The Tampico recently was raised by the federalists off Mazatlan where she had sunk.

The engagement took place last night at Topolobampo and word came to the navy department early today.

This is the second time the constitutionalist warship has suffered at the hands of the federal navy. The Tampico was sunk June 11 and only yesterday was repaired so that she could move under steam.

It is believed that the victorious Guerrero has destroyed the principal naval strength on the west coast and will be able to interfere with the siege operations.

Columbus, June 17.—There are nearly approximately 10,000,000 rats in Ohio, or twice as many rats as people, and every rat eats food costing \$1.50 a year, according to the estimates submitted to the Ohio State Board of Health by Dr. E. B. Kelley, health commissioner of Washington state, and an expert on all matters relating to the numbers and habits of rodents.

If the Kelley estimates are correct, then Ohio spends unwillingly every year the sum of \$15,000,000, or much more than enough to run the entire machinery of state.

Dr. Kelley brings up the rat question in Ohio because he regards rats as the distributors and spreaders of the dread Bubonic plague which during the past ten years has broken out in isolated points in the United States, but which fortunately never has been allowed to get a foothold.

Should the Bubonic plague ever get a start in this country, it would spread by the army of rats that infest every community, according to Dr. Kelley, and the results would be disastrous.

Therefore he believes that every state should begin in advance to do away with its rodents, and he has submitted his estimates of the enormous numbers and the destroying tactics of rats just to arouse the public against them.

The best way to get rid of rats is to starve them out, in the opinion of the expert from Washington. But there are other ways, he points out, and one of them is the construction of rat proof granaries and other places where rats can get food.

Of course this would be an indirect way to create a famine among the rodents and decimate them. The Ohio State Board of Health has started numerous anti-rat crusades, and each, it is thought, has had the effect of destroying thousands of the rodents.

But a goodly share remains, if the figures of Mr. Kelley are in every way trustworthy.

Dairymen along the route of the Cleveland, Youngstown & Eastern Traction line are showing the state public utilities commission with complaints regarding the effect of the "slow" orders under which the road is now operating.

As a result of the commission's ruling, this road can't run its cars more than 5 miles an hour upon any point between Chagrin Falls, in Portage county.

Now the complaint of the dairymen is that the milk they ship into Cleveland in the morning doesn't arrive until the afternoon and is sour when it reaches the market.

A certain way among the complaints has added the declaration that the road of the traction line is too uneven, that it gives a chummy motion to the cars and that sometimes the milk is thus churned into butter before it arrives in Cleveland.

The story about the road is a heated, but as to the buttered story—Alone!
